Interests ...

Running: I took part in various **marathons** and **triathlons**, which taught and helped me to always go the extra mile. These days the distances are shorter, but I'm still running. Apart from keeping me fit, it helps me to clear my mind as well.

Writing: In addition I am **Editor** and **Vice President** of the SSC (Sihltaler Sportclub), one of the largest runners club in the area of Zurich.

Sailing: Over the past years, I've been sailing in a team of four in different challenging **regattas**. Besides having fun on the water, it also tells you a lot about **team spirit** and **dynamic**. I also often sail on larger yachts, where I often spend my vacations with friends to enjoy the silent of the sea together.

... I am more than happy to tell you in greater details about my person in our interview.
